

Dear Fellow Stockholders:

I am writing to you to bring you up to date on Surge's current business and progress towards the growth opportunities we see ahead in our business.

It is no surprise that 2014 has continued to be characterized by opportunity and challenge. The global economic slowdown has continued, with reduced demand from China. This of course impacts the global economic and market conditions. The good news is that despite the slowdown, Surge's year over year sales and income have grown. However, our business could be adversely affected due to the continued rising labor costs in China, and general costs of doing business in Asia. Therefore, we must continue to expand our sales for increased profitability by exploring new opportunities for growth. These opportunities include:

1. **Supply Chain** – We serve as the North American sales and marketing office for our supply chain partners. We currently have ten main suppliers, with another five suppliers complimenting our main ones. We believe our supply chain partners are world class, and are very strong in the products they manufacture. Because of this, they have opened many doors for us, and have given us the opportunity to supply more products to these same customers, who are typically dominated by the major market share leaders. Our deeper and stronger ties with our existing as well as new suppliers, provides us new products to supply to our customers, and thereby expand our business with these customers.
2. **Distribution** - We continue to maintain channels for selling to customers that prefer to buy our products through distributors, rather than directly from us. These distributors provide the fulfillment services, including inventory management programs, longer payment terms and one stop shopping. We are fortunate to have a franchise relationship with three of the world's top electronic component distributors. We continue to be committed to these channels and have hired a national sales manager to focus on and increase our sales with these distributors.
3. **Contract Manufacturing** - Many customers manufacture their products at subcontractors. We are a supplier to three of the top five subcontractors in the world – Jabil, Celestica and Flextronics. As a result, these subcontractors don't only buy from us for customers for which we are approved, but also help us to get approved with their other manufacturing customers, and then buy from us for these customers as well. These subcontractors have enabled us to expand our business with new customers as well as with our existing customers.

We continue to strengthen our position in the market for our existing core products and are also adding new products which are complementary to our core products. We have customers in many market segments, including the automotive, computer, security, audio, telecom, industrial and energy industries. We continue to be cautiously optimistic about our future outlook, as we are in the approval stage with many of our good customers, and we expect new business from these customers.

Faced with the revolutionary changes taking place in the electronics industry, the management and employees of Surge are more determined than ever to make Surge a household name, and accepted and used by increasing numbers of customers worldwide. We truly appreciate your trust and support. We will continue to use our utmost efforts to increase our earnings and enhance shareholder value.

Ira Levy
President and Chief Executive Officer

For the transition period from _____ to _____

Commission File No. 000-27688

SURGE COMPONENTS, INC.

(Exact name of registrant as specified in its charter)

Nevada	11-2602030
(State or Other Jurisdiction of Incorporation or Organization)	(I.R.S. Employer Identification No.)

95 East Jefryn Boulevard Deer Park, New York	11729
(Address of principal executive offices)	(Zip Code)

(631) 595-1818
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Exchange Act:

Title of Each Class to be so Registered:	Name of each exchange on which registered
None	None

Securities registered under Section 12(g) of the Act:

Common Stock, Par Value \$0.001
(Title of Class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or such shorter period that the registrant was required to submit and post such files. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in the definitive proxy or information statement incorporated by reference in Part III of this Form 10-K or amendment to Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer", and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer

Accelerated Filer

Non-accelerated Filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of May 31, 2013, the aggregate market value of the issued and outstanding common stock held by non-affiliates of the registrant, based upon the closing price of the common stock, was approximately \$3.9 million.

The Registrant's common stock outstanding as of February 21, 2014, was 9,060,012 shares of common stock.

FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements. All statements other than statements of historical facts contained in this report, including statements regarding our future results of operations and financial position, business strategy and plans and objectives of management for future operations, are forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements.

In some cases, forward-looking statements can be identified by terms such as “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “could,” “intends,” “target,” “projects,” “contemplates,” “believes,” “estimates,” “predicts,” “potential” or “continue” or the negative of these terms or other similar words. These statements are only predictions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our business, financial condition and results of operations. We discuss many of the risks in greater detail under the heading “Risk Factors.” Also, these forward-looking statements represent our estimates and assumptions only as of the date of the filing of this report. Except as required by law, we assume no obligation to update any forward-looking statements after the date of the filing of this report.

This report also contains estimates and other statistical data made by independent parties and by us relating to market size and growth and other industry data. This data involves a number of assumptions and limitations, and investors are cautioned not to give undue weight to such estimates. We have not independently verified the statistical and other industry data generated by independent parties and contained in this report and, accordingly, we cannot guarantee their accuracy or completeness. In addition, projections, assumptions and estimates of our future performance and the future performance of the industries in which we operate are subject to a high degree of uncertainty and risk due to a variety of factors, including those described in “Risk Factors” and elsewhere in this report. These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.

PART I

Item 1. Business.

References to “we,” “us,” “our,” “our company” and “the company” refer to Surge Components, Inc. (“Surge” or the “Company”) and, unless the context indicates otherwise, includes Surge’s wholly-owned subsidiaries, Challenge/Surge, Inc. (“Challenge”), and Surge Components, Limited (“Surge Limited”).

We were incorporated under the laws of the State of New York on November 24, 1981, and re-incorporated in Nevada on August 26, 2010. We completed an initial public offering of our securities in 1984 and a second offering in August 1996. Our principal executive offices are located at 95 East Jefryn Boulevard, Deer Park, New York 11729 and our telephone number is (631) 595-1818.

We are a supplier of electronic products and components. These products include capacitors, which are electrical energy storage devices, and discrete components, such as semiconductor rectifiers, transistors and diodes, which are single function low power semiconductor products that are packaged alone as compared to integrated circuits such as microprocessors. The products that we sell are typically utilized in the electronic circuitry of diverse products, including, but not limited to, automobiles, telecomm, audio, cellular telephones, computers, consumer electronics, garage door openers, household appliances, power supplies and security equipment. The products that we sell are sold to both original equipment manufacturers, commonly referred to as OEMs, who incorporate them into their products, and to distributors of the lines of products we sell, who resell these products within their customer base. Surge sells its products through three of the top four distributors for electronic components in the world and also supplies its products to subcontractors who manufacture for their customers. These channels open doors to Surge at customers which Surge may not have access to otherwise. The products that we sell are manufactured predominantly in Asia by approximately sixteen independent manufacturers. We only have one binding long-term supply agreement with one of our manufacturers, Lelon Electronics. We have an agreement to act as the exclusive sales agent utilizing independent sales representative organizations in North America to sell and market the products for one of such manufacturers, Lelon Electronics. When we act as a sales agent, we receive a commission from our supplier who sold the product to the customer that we introduced to our supplier. The amount of the commission is determined on a sale by sale basis depending on the profit margin of the product. Commission revenue totaled \$643,868 and \$417,528 for the fiscal year ended November 30, 2013 and November 30, 2012, respectively.

Challenge is engaged in the sale of electronic components. In 1999, Challenge began a division to sell audible components. We have been able to increase the types of products that we sell because some of our suppliers introduced new products, and we also located other products from new suppliers. As a result, we are continually trying to add to the types of electronic components that we sell. In 2002 we started to import products similar to our parent company Surge, and sold these under the Challenge name. It started with a line of transducers, then we added battery snaps, and coin cell holders. We have since increased our imported private label product mix to include buzzers, speakers, microphones, resonators, filters, and discriminators. We now also work with our suppliers to have our suppliers customize many of the products we sell for many customers through the customers’ own designs and those that we work with our suppliers to have our suppliers redesign for them at our suppliers’ factories. We have a design engineer on our staff with more than thirty years experience with these types of products, who works with our suppliers on such redesigns. We continue to expand the line of products we sell, including alarms and chimes. We sell these products through independent representatives that earn a commission on the products we sell. We are also working with local, regional, and national distributors to sell these products to local accounts in every state.

In order for us to grow, we will depend on, among other things, the continued growth of the electronics and semiconductor industries, our ability to withstand intense price competition, our ability to obtain new clients, our ability to retain and attract sales and other personnel in order to expand our marketing capabilities, our ability to secure adequate sources of products, which are in demand on commercially reasonable terms, our success in managing growth, including monitoring an expanded level of operations and controlling costs.

Industry Background

The United States electronics distribution industry is composed of manufacturers, national and international distributors, as well as regional and local distributors. Electronics distributors market numerous products, including active components (such as transistors, microprocessors, integrated circuits and semiconductors), passive components (such as capacitors and audibles), and electro mechanical, interconnect (such as connectors and wire) and computer products. Surge focuses its efforts on the sale of capacitors, discrete components, and audible products.

The electronics industry has been characterized by intense price cutting and rapid technological changes and development, which could materially adversely affect our future operating results. In addition, the industry has been affected historically by general economic downturns, which have had an adverse economic effect upon manufacturers and end-users of the products that we sell, as well as distributors. Furthermore, the life-cycle of existing electronic products and the timing of new product development and introduction can affect the demand for electronic components, including the products that we sell. Accordingly, any downturn in the electronics industry in general could adversely affect our business and results of operations. There are forces of change such as polarization, price cutting, M&A of customers and centralization of purchasing by customers vs. localized, affecting the wholesale distribution industry, including the electronics industry. The industry has experienced a strong move by U.S. manufacturers to design products in the United States, but then shift manufacturing and purchasing to Asia to benefit from this low cost labor region using their own factory or a subcontractor. Surge has responded to this trend by setting up a Hong Kong corporation, Surge Components, Limited, and hiring a sales staff to better position the Company in the Asian markets. Due to rising transportation and employment costs in Asia, we have seen U.S. manufacturers start moving their manufacturing facilities to Mexico to reduce transportation costs and bring manufacturing much closer to home. At this time, however, none of our customers has moved its manufacturing facilities to Mexico.

Products

Surge supplies a wide variety of electronic components (some of which bear our private “Surge” label) which can be broadly divided into two categories—capacitors and discrete components. For Fiscal 2013 and Fiscal 2012, capacitors accounted for approximately 50% and 50% of Surge’s sales respectively of which approximately 75% was Lelon capacitors (discussed below). Discrete components accounted for Surge’s remaining sales in Fiscal 2013 and Fiscal 2012. Capacitors and discrete components can be categorized based on various factors, including function, construction, fabrication and capacity.

We sell, under the name of the manufacturer, Lelon Electronics, aluminum electrolytic capacitors, which are capacitors that store and release energy into a circuit incrementally and are used in various applications, including but not limited to, computers, appliances, automotive, lighting, telecommunications devices and various consumer products. Our sales of products under the Lelon Electronics name accounted for approximately 40% of our total sales (and approximately 75% of our capacitor sales as noted above) in Fiscal 2013.

The principal products sold by Surge under the Surge name (except with respect to capacitors, which the Company also sells under the Lelon Electronics name as noted above) or by Challenge are set forth below.

Capacitors

A capacitor is an electrical energy storage device used in the electronics industry for varied applications, principally as elements of resonant circuits, coupling and bypass applications, blockage of DC current, frequency determining and timing elements, filters and delay-line components. All products are available in traditional leaded as well as surface mount (chip) packages. The product line of capacitors we sell includes:

Aluminum Electrolytic Capacitors- These capacitors, which are Surge’s principal product, are storage devices used in power applications to store and release energy as the electronic circuitry demands. They are commonly used in power supplies and can be found in a wide range of consumer electronics products. Our supplier has one of the largest facilities for these products in Taiwan and China. These facilities are fully certified for the International Quality Standard ISO 9001 and QS9000, and TS16949, which means that they meet the strictest requirements established by the automotive industry and adopted throughout the world to ensure that the facility’s manufacturing processes, equipment and associated quality control systems will satisfy specific customer requirements. This system is also intended and designed to facilitate clear and thorough record keeping of all quality control and testing information and to ensure clear communication from one department to another about the information (i.e., quality control, production or engineering). This certification permits us to monitor quality control/manufacturing process information and to respond to any customer questions.

Ceramic Capacitors- These capacitors are the least expensive, and are widely used in the electronics industry. They are commonly used to bypass or filter semiconductors in resonant circuits and are found predominantly in a wide range of low cost products including computer, telecom, appliances, games and toys.

Mylar Film Capacitors- These capacitors are frequently used for noise suppression and filtering. They are commonly used in telecommunication and computer products. Surge's suppliers in China have facilities fully certified for all of the above mentioned certifications.

Discrete Components

Discrete components, such as semiconductor rectifiers, transistors and diodes, are packaged individually to perform a single or limited function, in contrast to integrated circuits, such as microprocessors and other "chips", which contain from only a few diodes to as many as several million diodes and other elements in a single package, and are usually designed to perform complex tasks. Surge almost exclusively distributes discrete, low power semiconductor components rather than integrated circuits.

The product line of discrete components we sell includes:

Rectifiers- Low power semiconductor rectifiers are devices that convert alternating current, or AC power, into one directional current, or DC power, by permitting current to flow in one direction only. They tend to be found in most electrical apparatuses, especially those drawing power from an AC wall outlet. All products are available in traditional leaded as well as surface mount (chip) packages. Surge's rectifier suppliers all have the aforementioned certifications, giving us an opportunity to market the products that we sell to the automotive industry.

Transistors- These products send a signal to the circuit for transmission of waves. They are commonly used in applications involving the processing or amplification of electric current and electric signals, including data, television, sound and power. All products are available in traditional leaded as well as surface mount (chip) packages. Surge sells many types of ISO 9002 transistors, including power transistors, designed for large currents to safely dissipate large amounts of power.

Diodes- Diodes are two-lead or surface mount components that allow electric current to flow in only one direction. They are used in a variety of electronic applications, including signal processing and direction of current. All products are available in traditional leaded as well as surface mount (chip) packages. Diodes sold include:

Circuit Protection Devices- Our circuit protection devices include transient voltage suppressors and metal oxide varistors, which protect circuits against switching, lightning surges and other uncontrolled power surges and/or interruptions in circuits. Transient voltage suppressors, which offer a higher level of protection for the circuit, are required in telecommunication products and are typically higher priced products than the metal oxide varistors, which are more economically priced and are used in consumer products. All products are available in traditional leaded as well as surface mount (chip) packages.

Audible Components- These include audible transducers, Piezo buzzers, speakers, and microphones, which produce an audible sound for, and are used in back-up power supplies for computers, alarms, appliances, smoke detectors, automobiles, telephones and other products which produce sounds. Challenge has initiated marketing relationships with certain Asian manufacturers of audible components to sell these products worldwide. All products are available in traditional leaded as well as surface mount (chip) packages.

New Products- We periodically introduce new products, which are intended to complement our existing product lines. These products are ones that are commonly used in the same circuit designs as other of the products that we sell and will further provide a one- stop-shop for the customer. Some of these products are common items used in all applications and others are niche items with a focus towards a particular application. These new products include fuses, printed circuit boards and switches. All products are available in traditional leaded as well as surface mount (chip) versions.

Inventory

In order to adequately service our customers' needs, we believe that it is necessary to maintain large inventories, which makes us more susceptible to price and technology changes. At any given time, we attempt to maintain a one-to-two month inventory on certain products in high demand for customers and at least one month for other products. Our inventory currently contains more than 100 million component units consisting of more than 3,000 different part numbers. The products that we sell range in sales price from less than one cent for a commercial diode to more than \$2.00 for high power capacitors and semiconductors. As of November 30, 2013, we maintained inventory valued at \$3,672,563.

Because of the experience of our management, including Ira Levy and Steven Lubman, we believe that we know the best prices to buy the products we sell and as a result we generally waive rights to manufacturers' inventory protection agreements (including price protection and inventory return rights), and thereby bear the risk of increases in the prices charged by our manufacturers and decreases in the prices of products held in our inventory or covered by purchase commitments. If prices of components, which we hold in inventory decline, or if new technology is developed that displaces products that we sell, our business could be materially adversely affected.

Product Availability

Surge obtains substantially all of its products from manufacturers in Asia, while Challenge historically purchases its products both domestically and from Asia. However, in Fiscal 2013 and Fiscal 2012, Challenge purchased approximately 93% and 90%, respectively, of its products overseas as a result of Challenge's introduction of new product lines. Of the total goods purchased by Surge and Challenge in Fiscal 2013, those foreign manufactured products were supplied from manufacturers in Taiwan (56%), Hong Kong (12%), elsewhere in Asia (27%) and overseas outside of Asia (less than 1%). The Company purchases its products from approximately sixteen different manufacturers.

Most of the facilities that manufacture products for Surge have obtained International Quality Standard ISO 9002 and other certifications. We typically purchase the products that we sell in United States currency in order to minimize the risk of currency fluctuations. In most cases, Surge utilizes two or more alternative sources of supply for each of its products with one primary and one complementary supplier for each product. Surge's relationships with many of its suppliers date back to the commencement of our import operations in 1983. We have established payment terms with our manufacturers of between 30 and 60 day open account terms.

We only have one agreement with a supplier, Lelon Electronics, which is terminable by either party upon six months notice to the other party. We have an agreement to act as the sales agent in North America for one of our manufacturers, Lelon Electronics. While we believe that we have established close working relationships with our principal manufacturers, our success depends, in large part, on maintaining these relationships and developing new supplier relationships for our existing and future product lines. Because of the lack of long-term contracts, we may not be able to maintain these relationships.

For Fiscal 2013 and Fiscal 2012, one of Surge's vendors, Lelon Electronics, accounted for approximately 47% and 45% of Surge's consolidated purchases. The loss of or a significant disruption in the relationship with Lelon Electronics, which is our major supplier, could have a material adverse effect on our business and results of operations until a suitable replacement could be obtained.

The Company has a written agreement with Lelon Electronics regarding the supply of inventory for the Company's customers. The Company purchases products under both the Company's name and Lelon's brand name for the Company's inventory in order to supply the Company's customers. For the majority of purchases from Lelon Electronics, the Company takes title to the products, houses them in the Company's warehouse and sells directly to the Company's customers. There is no right of return on the products purchased from Lelon and the Company accepts all credit risk with regards to sales of these products.

The components business has, from time to time, experienced periods of extreme shortages in product supply, generally as the result of demand exceeding available supply. When these shortages occur, suppliers tend to either increase prices or reduce the number of units sold to customers. We believe that because of our inventory and our relationships with our manufacturers, we have been able to mitigate the effect of any of these shortages in components. However, should there be shortages in the future, such shortages could have both a beneficial or an adverse effect upon our business. Conversely, due to poor market demand, there could be an excess of components in the market, causing stronger competition and an erosion of prices. Currently, demand in the industry is flat regarding product availability for customers in most market segments.

Marketing and Sales

Surge's sales efforts are directed towards Original Equipment Manufacturer (OEM) customers in numerous industries where the products that we sell have wide application. Surge currently employs eleven sales and marketing personnel, including two of its executive officers, who are responsible for certain key customer relationships.

We use independent sales representatives or organizations, which often specialize in specific products and areas and have specific knowledge of and contacts in particular markets. As of November 30, 2013, we had representation

agreements with approximately 30 sales representative organizations. Sales representative organizations, which are generally paid a 5% commission on net sales, are generally responsible in their respective geographic markets for identifying customers and soliciting customer orders. Pursuant to arrangements with our independent sales representatives, they are permitted to represent other electronics manufacturers, but are generally prohibited from carrying a line of products competitive with the products that we sell. These arrangements can be terminated on written notice by either party or if breached by either party. These organizations normally employ between one and twelve sales representatives. The individual sales representatives employed by the sales organizations generally possess an expertise which enhances the scope of our marketing and sales efforts. This permits us to avoid the significant costs associated with creating a direct marketing network. We have had relationships with certain sales organizations since 1988 and continue to engage new sales organizations as needed. We believe that additional sales organizations and representatives are available to us, if required.

We have initiated a formal national distribution program to attract more distributors to promote the products that we sell. We expect this market segment to contribute significantly to our sales growth over time.

Many customers require their suppliers to have a local presence and Surge's network of independent sales representatives are responsive to these needs. Surge formed a Hong Kong corporation, Surge Components, Limited and hired a regional sales manager to service the Hong Kong/Greater China region customers.

Other marketing efforts include generation and distribution of catalogs and brochures of the products we sell and attendance at trade shows. We have produced an exhibit for display at electronics trade shows throughout the year. The products that we sell have been exhibited at the electronic distribution show in Las Vegas, and we intend to continue our commitment and focus on the distribution segment of the industry by our visibility at the Electronic Distributor Trade Show. In addition, we have updated our website to make it more informative and user friendly. Our search engines have been improved so that customers can find us more easily and we have developed a new portal system to help with lead management and disbursement.

Customers

The products that we sell are sold to distributors and OEMs in such diverse industries as the automotive, computer, communications, cellular telephones, consumer electronics, garage door openers, security equipment, audio equipment, telecomm products, computer related products, power supply products, utility meters and household appliances industries. We request our distributors to provide point of sales reporting, which enables us to gain knowledge of the breakdown of industries into which the products that we sell are sold. One of our customers, Avnet, accounted for 10% of net sales for Fiscal 2013. For Fiscal 2012, the Company had one customer, Honeywell Inc., who accounted for 10% of net sales. The Company has transferred the Honeywell business from a direct relationship to now selling to Honeywell through Avnet. Our discrete components are often sold to the same clients as our capacitors. These OEM customers typically accept samples for evaluation and, if approved, we work towards procuring the next orders for these items.

Typically, we do not maintain contracts with our customers and generally sell products pursuant to customer purchase orders. Although our customer base has increased, the loss of our largest customers as well as, to a lesser extent, the loss of any other material customer, could have a materially adverse effect on our operations during the short-term until we are able to generate replacement business, although we may not be able to obtain such replacement business. Because of our contracts and good working relationships with our distributors, we offer the OEMs, when purchasing through distributors, extended payment terms, just-in-time deliveries and one-stop shopping for many types of electronic products.

Competition

We conduct business in the highly competitive electronic components industry. We expect this industry to remain competitive. We face intense competition in both our selling efforts and purchasing efforts from the many companies that manufacture or distribute electronic components. Our principal competitors in the sale of capacitors include Nichicon, Panasonic, Illinois Capacitor, NIC, AVX, Murata, Epcos, United Chemicon, Rubycon, Vishay and Kemet. Our principal competitors in the sale of discrete components include Vishay, General Semiconductor Division, General Instrument Corp., OnSemi, Inc., Microsemi Corp., Diodes, Inc. and Littlefuse, and Copper Bussman Division. Our principal competition in the audible business include AVX, Murata, Panasonic, Projects Unlimited, International Components Corp. and Star Micronics. Many of these companies are well established with substantial expertise, and have much greater assets and greater financial, marketing, personnel, and other resources than we do. Many larger competing suppliers also carry product lines which we do not carry. Generally, large

semiconductor manufacturers and distributors do not focus their direct selling efforts on small to medium sized OEMs and distributors, which constitute many of our customers. As our customers become larger, and as the market becomes more competitive, our competitors may find it beneficial to focus direct selling efforts on those customers, which could result in our facing increased competition, the loss of customers or pressure on our profit margins. We are finding increased competition from manufacturers located in Asia due to the increased globalization nature of the business. There can be no assurance that we will be able to continue to compete effectively with existing or potential competitors. Other factors that will affect our success in these markets include our continued ability to attract additional experienced marketing, sales and management talent, and our ability to expand our support, training and field service capabilities. Additionally, since the tsunami and earthquake in Japan in 2012, our competitors have established manufacturing facilities in China enabling them to be more competitive by lowering their labor rates and manufacturing costs. Also, as the world continues to become global and customers have easier access to suppliers in Asia, our business could be adversely affected since foreign suppliers are traveling to the United States and interacting with customers more often, where previously they communicated via long-distance. Also, the internet enables customers to meet and interact with suppliers through Google and other search engines which customers had not previously done.

Customer Service

We have customer service employees whose time is dedicated largely to responding to customer inquiries such as price quote requests, delivery status of new or existing purchase orders, changes of existing order dates, quantities, dates, etc. We intend to increase our customer service capabilities, as necessary.

Foreign Trade Regulation

Most products sold by Surge are manufactured in Asia, including such countries as Taiwan, South Korea, Hong Kong, India, Japan and China. The purchase of goods manufactured in foreign countries is subject to a number of risks, including economic disruptions, transportation delays and interruptions, foreign exchange rate fluctuations, impositions of tariffs and import and export controls, and changes in governmental policies, any of which could have a material adverse effect on our business and results of operations. Potential concerns may include drastic devaluation of currencies, loss of supplies and increased competition within the region.

From time to time, protectionist pressures have influenced United States trade policy concerning the imposition of significant duties or other trade restrictions upon foreign products. We cannot predict whether additional United States customs quotas, duties, taxes or other charges or restrictions will be imposed upon the importation of foreign components in the future or what effect such actions could have on our business, financial condition or results of operations.

Our ability to remain competitive with respect to the pricing of imported components could be adversely affected by increases in tariffs or duties, changes in trade treaties, strikes in air or sea transportation, and possible future United States legislation with respect to pricing and import quotas on products from foreign countries. Our ability to remain competitive could also be affected by other governmental actions related to, among other things, anti-dumping legislation and international currency fluctuations. While we do not believe that any of these factors adversely impact our business at the present time, there can be no assurance that these factors will not materially adversely affect us in the future. Any significant disruption in the delivery of merchandise from our suppliers, substantially all of whom are foreign, could have a materially adverse impact on our business and results of operations.

Government Regulation

Various laws and regulations relating to safe working conditions, including the Occupational Safety and Health Act, are applicable to our company. We believe we are in substantial compliance with all material federal, state and local laws and regulations regarding safe working conditions. We believe that the cost of compliance with such governmental regulations is not material.

We are subject to the United States Foreign Corrupt Practices Act, which generally prohibits United States companies from engaging in bribery or other prohibited payments to foreign officials for the purpose of obtaining or retaining business. Foreign companies, including some that may compete with us, are not subject to these prohibitions. If our employees or other agents are found to have engaged in such practices, we could suffer severe penalties and other consequences that may have a material adverse effect on our business, financial condition and results of operations. To the Company's knowledge, none of our employees or other agents have engaged in such practices.

Environmental and Regulatory Compliance

We are subject to various environmental laws and regulations relating to the protection of the environment, including those governing the handling and management of certain chemicals used in electronic components.

We do not believe that compliance with these laws and regulations will have a material adverse effect on our capital expenditures, earnings, or competitive position.

Patents, Trademarks and Proprietary Information

With respect to the products that we sell, we have no patents, trademarks or copyrights registered in the United States Patent and Trademark Office or in any state. Additionally to the best of our knowledge the manufacturers of the products that we sell do not have patents, trademarks or copyrights registered in the United States Patent and Trademark Office or in any state. We rely on the know-how, experience and capabilities of our management personnel. Although we believe that the products do not and will not infringe patents or trademarks, or violate proprietary rights of others, it is possible that infringement of existing or future patents, trademarks or proprietary rights of others may occur. In the event that the products that we sell infringe proprietary rights of others, these products may have to be modified or redesigned by the manufacturer of these products. However, there can be no assurance that any infringing products will be able to be modified or redesigned in a way that does not infringe on the proprietary rights of others, which could have a material adverse effect upon our operations. In addition, there can be no assurance that we will have the financial or other resources necessary to enforce or defend a patent infringement or proprietary rights violation action. Moreover, if the products we sell infringe patents, trademarks or proprietary rights of others, we could, under certain circumstances, become liable for damages, which also could have a material adverse effect on our business.

Backlog

As of November 30, 2013, our backlog was approximately \$5,979,000, as compared with \$5,301,000 at November 30, 2012. Substantially all backlog is expected to be shipped by us within 90 to 180 days. Year to year comparisons of backlog are not necessarily indicative of future operating results.

Employees

As of November 30, 2013, Surge and Challenge employed 33 persons, two of whom are employed in executive capacities, nine are engaged in sales, three in engineering, three in purchasing, two in administrative capacities, seven in customer service, two in accounting and five in warehousing. None of our employees are covered by a collective bargaining agreement, and we consider our relationship with our employees to be good.

Item 1A. Risk Factors

An investment in the our common stock involves a high degree of risk. An investor should carefully consider the risks described below as well as other information contained in this annual report on Form 10-K. If any of the following risks actually occur, our business, financial condition or results of operations could be materially adversely affected, the value of our common stock could decline, and an investor may lose all or part of his or her investment.

Risks Related to our Business

We only have one agreement with our suppliers and we depend on a limited number of suppliers

We only have one agreement with our suppliers (Lelon Electronics), which agreement is terminable by either party upon notice to the other party. Lelon Electronics accounted for approximately 47% and 45% of the Company's consolidated purchases. We also act as the exclusive sales agent in North America for Lelon Electronics. While we believe that we have established close working relationships with our principal suppliers, our success depends, in large part, on maintaining these relationships and developing new supplier relationships for our existing and future product lines. There is no assurance that will be able to maintain these relationships. While we believe that there are alternative semiconductor and capacitor suppliers whose replacement products may be acceptable to our customers, the loss of, or a significant disruption in the relationship with, one or more of our major suppliers would likely have a material adverse effect on our business and results of operations.

We need to maintain large inventories in order to succeed and as a result, price fluctuations could harm us.

In order to adequately service our customers, we believe that it is necessary to maintain a large inventory of products. Accordingly, we attempt to maintain a one-to-two month inventory of those products we offer which are in high demand. As a result of our strategic inventory purchasing policies, under which we order products to obtain preferential pricing, we generally waive the right to manufacturers' inventory protection agreements (including price protection and inventory return rights). As a result, we bear the risk of increases in the prices charged by our manufacturers and decreases in the prices of products held in our inventory or covered by purchase commitments. If prices of components which we hold in inventory decline or if new technology is developed that displaces products which we sell, our business could be materially adversely affected.

Our operations would be adversely affected if we lose certain of our customers.

For Fiscal 2013, approximately 10% of our net sales were derived from sales to one customer. Although our customer base has increased, the loss of our largest customers as well as, to a lesser extent, the loss of any other material customer, would be expected to have a materially adverse effect on our operations during the short-term until we are able to generate replacement business, although we may not be able to obtain such replacement business.

We may not be able to compete against large competitors who have better resources.

We face intense competition, in both our selling efforts and purchasing efforts, from the many companies that manufacture or distribute electronic components and semiconductors. Our principal competitors in the sale of capacitors include Nichicon, Panasonic, Illinois Capacitor, NIC, AVX, Murata, Epcos, United Chemicon, Rubycon, Vishay and Kemet, General Semiconductor Division, General Instrument Corp., OnSemi, Inc., Microsemi Corp., Diodes, Inc. and Littlefuse, and Copper Bussman Division. Many of these companies are well established with substantial expertise, and have much greater assets and greater financial, marketing, personnel, and other resources than we do. Many larger competing suppliers also carry product lines which we do not carry. Generally, large semiconductor manufacturers and distributors do not focus their direct selling efforts on small to medium sized OEMs and distributors, which constitute most of our customers. As our customers become larger, however, our competitors may find it beneficial to focus direct selling efforts on those customers, which could result in our facing increased competition, the loss of customers or pressure on our profit margins. There can be no assurance that we will be able to continue to compete effectively with existing or potential competitors.

Our business will be adversely affected if there is a shortage of components.

The components business has, from time to time, experienced periods of extreme shortages in product supply, generally as the result of demand exceeding available supply. When these shortages occur, suppliers tend to either increase prices or reduce the number of units sold to customers. We believe that because of our large inventory and our relationships with our manufacturers, we have not been adversely affected by shortages in certain discrete semiconductor components. However, in the future shortages may have an adverse effect upon our business especially if we were to reduce inventory to cut costs and reduce risks of obsolescence.

Our success depends on key personnel whose continued service is not guaranteed.

Our continued success and our ability to manage anticipated future growth depend, in large part, upon the efforts of key personnel, particularly Ira Levy and Steven Lubman, our chief executive officer and vice president, respectively, who have extensive industry knowledge and relationships and exercise substantial influence over our operations. The loss of services of one or both of these individuals, or our inability to attract and retain highly qualified personnel, could adversely affect our business, and weaken our relationships with suppliers, business partners, and industry personnel, which could adversely affect our financial condition, results of operations, cash flow and trading price of our common stock.

Our business is subject to risks from trade regulation and foreign economic conditions.

Approximately 95% of the total goods which we purchased in Fiscal 2013 were manufactured in foreign countries, with the majority purchased from Taiwan (56%), Hong Kong (12%), elsewhere in Asia (27%) and outside of Asia (less than 1%). These purchases subject us to a number of risks, including economic disruptions, transportation delays and interruptions, foreign exchange rate fluctuations, imposition of tariffs and import and export controls and changes in governmental policies, any of which could have a materially adverse effect on our business and results of operations. Potential concerns may include drastic devaluation of currencies, loss of supplies and increased competition within the region.

The ability to remain competitive with respect to the pricing of imported components could be adversely affected by increases in tariffs or duties, changes in trade treaties, strikes in air or sea transportation, and possible future United States legislation with respect to pricing and import quotas on products from foreign countries. For example, it is possible that political or economic developments in China, or with respect to the United States' relationship with China, could have an adverse effect on our business. Our ability to remain competitive could also be affected by other governmental actions related to, among other things, anti-dumping legislation and international currency fluctuations. While we do not believe that any of these factors have adversely impacted our business in the past, there can be no assurance that these factors will not materially adversely affect us in the future.

Electronics industry cyclicality may adversely affect our operations.

The electronics industry has been affected historically by general economic downturns, which have had an adverse economic effect upon manufacturers and end-users of capacitors and semiconductors. In addition, the life-cycle of existing electronic products and the timing of new product developments and introductions can affect demand for semiconductor components. Any downturns in the electronics distribution industry could adversely affect our business and results of operations.

Our products are not protected by patents, trademarks and proprietary information.

We have no patents, trademarks or copyrights registered in the United States Patent and Trademark Office or in any state. We rely on the know-how, experience and capabilities of our management personnel. Therefore, without trademark and copyright protection, we have no protection from other parties attempting to offer similar services. Although we believe that the products that we sell do not and will not infringe patents or trademarks, or violate proprietary rights of others, it is possible that infringement of existing or future patents, trademarks or proprietary rights of others may occur. In the event that the products that we sell infringe proprietary rights of others, the manufactures of the products that we sell may be required to modify the design of the products that we sell, change the name of these products and/or obtain a license. There can be no assurance that the manufactures will be able to modify or redesign the products in a way that does not infringe on the proprietary rights of others. Our failure to do any of the foregoing could have a material adverse effect upon our operations. In addition, there can be no assurance that we will have the financial or other resources necessary to enforce or defend a patent infringement or proprietary rights violation action. Moreover, if the products that we sell infringe patents, trademarks or proprietary rights of others, we could, under certain circumstances, become liable for damages, which also could have a material adverse effect on our business.

Failure to comply with the United States Foreign Corrupt Practices Act could subject us to penalties and other adverse consequences.

We are subject to the United States Foreign Corrupt Practices Act, which generally prohibits United States companies from engaging in bribery or other prohibited payments to foreign officials for the purpose of obtaining or retaining business. Foreign companies, including some that may compete with us, are not subject to these prohibitions. To our knowledge, none of our employees or other agents have engaged in such practices. However, if our employees or other agents are found to have engaged in such practices, we could suffer severe penalties and other consequences that may have a material adverse effect on our business, financial condition and results of operations.

Risks Related to our Common Stock

Our common stock is quoted on the OTCQB, which may limit the liquidity and price of our common stock more than if our common stock were listed on the Nasdaq Stock Market or another national exchange.

Our securities are currently quoted on the OTCQB, an inter-dealer electronic quotation and trading system or equity securities. Quotation of our securities on the OTCQB may limit the liquidity and price of our securities more than if our securities were listed on The Nasdaq Stock Market or another national exchange. Some investors may perceive our securities to be less attractive because they are traded in the over-the-counter market. In addition, as an OTCQB listed company, we do not attract the extensive analyst coverage that accompanies companies listed on national exchanges. Further, institutional and other investors may have investment guidelines that restrict or prohibit investing in securities traded on the OTCQB. These factors may have an adverse impact on the trading and price of our common stock.

The market price of our common stock may fluctuate significantly in response to the following factors, most of which are beyond our control:

- variations in our quarterly operating results;
- changes in general economic conditions;
- changes in market valuations of similar companies;
- announcements by us or our competitors of significant new contracts, acquisitions, strategic partnerships or joint ventures, or capital commitments;
- loss of a major supplier or customer; and
- the addition or loss of key managerial and collaborative personnel.

Any such fluctuations may adversely affect the market price of our common stock, regardless of our actual operating performance. As a result, stockholders may be unable to sell their shares, or may be forced to sell them at a loss.

The application of the “penny stock” rules could adversely affect the market price of our common stock and increase an investor’s transaction costs to sell those shares.

Rule 3a51-1 of the Exchange Act defines “penny stock,” in part, as any equity security that has a market price of less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, Rule 15c-9 of the Exchange Act requires that a broker or dealer:

- approve a person’s account for transactions in penny stocks; and
- receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person’s account for transactions in penny stocks, the broker or dealer must:

- obtain financial information and investment experience and objectives of the person; and
- make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the SEC relating to the penny stock market, which:

- sets forth the basis on which the broker or dealer made the suitability determination; and
- that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Generally, brokers may be less willing to execute transactions in securities subject to the “penny stock” rules. This may make it more difficult for investors to dispose of our common stock and cause a decline in the market value of our stock.

As an issuer of “penny stock,” the protection provided by the federal securities laws relating to forward looking statements does not apply to us.

Although federal securities laws provide a safe harbor for forward-looking statements made by a public company that files reports under the federal securities laws, this safe harbor is not available to issuers of penny stocks. As a result, the Company will not have the benefit of this safe harbor protection in the event of any legal action based upon a claim that the material provided by the Company contained a material misstatement of fact or was misleading in any material respect because of the Company’s failure to include any statements necessary to make the statements not misleading. Such an action could hurt our financial condition.

The market price for our common stock is particularly volatile given our status as a relatively unknown company with a small and thinly traded public float which could lead to wide fluctuations in our share price. Investors may be unable to sell their common stock at or above your purchase price, which may result in substantial losses to investors.

The market for our common stock is characterized by significant price volatility when compared to seasoned issuers, and we expect that our share price will continue to be more volatile than a seasoned issuer for the indefinite future. The volatility in our share price is attributable to a number of factors. First, as noted above, our common stock is sporadically and thinly traded. As a consequence of this lack of liquidity, the trading of relatively small quantities of shares by our shareholders may disproportionately influence the price of those shares in either direction. The price for our shares could, for example, decline precipitously in the event that a large number of our shares of common stock are sold on the market without commensurate demand, as compared to a seasoned issuer which could better absorb those sales without adverse impact on its share price. Secondly, investors may consider us a speculative or risky investment due to the uncertainty of future market acceptance for our potential products. As a consequence of this enhanced risk, more risk-averse investors may, under the fear of losing all or most of their investment in the event of negative news or lack of progress, be more inclined to sell their shares on the market more quickly and at greater discounts than would be the case with the stock of a seasoned issuer. Many of these factors are beyond our control and may decrease the market price of our common stock, regardless of our operating performance. We cannot make any predictions or projections as to the prevailing market price for our common stock at any time, including whether our common stock will sustain its current market price, or the effect that the sale or the availability shares for sale at any time will have on the prevailing market price.

We will incur increased costs as a result of being a public company, which could affect our profitability and operating results.

We are obligated to file annual, quarterly and current reports with the SEC pursuant to the Securities Exchange Act of 1934, as amended. Changing laws, regulations and standards relating to corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002 (“Sarbanes-Oxley”) and related SEC regulations, have created uncertainty for public companies and significantly increased the costs and risks associated with accessing the public markets and public reporting. We expect these rules and regulations to increase our legal and financial compliance costs and to make some activities more time-consuming and costly. We expect to spend between \$190,000 and \$220,000 in legal and accounting expenses annually to comply with our reporting obligations and Sarbanes-Oxley. These costs could affect profitability and our results of operations.

We have not paid dividends on our common stock in the past and do not expect to pay dividends for the foreseeable future. Any return on investment may be limited to the value of our common stock.

No cash dividends have been paid on the Company’s common stock. We expect that any income received from operations will be devoted to our future operations and growth. The Company does not expect to pay cash dividends on its common stock in the near future. Payment of dividends would depend upon our profitability at the time, cash available for those dividends, and other factors as the Company’s board of directors may consider relevant. If the Company does not pay dividends, the Company’s common stock may be less valuable because a return on an investor’s investment will only occur if the Company’s stock price appreciates.

The rights of the holders of common stock have been impaired by the issuance of preferred stock and may be further impaired by the potential future issuance of preferred stock.

We are authorized to issue up to 5,000,000 shares of blank check preferred stock of which 260,000 shares have been designated as Non-Voting Redeemable Convertible Series A Preferred Stock, of which no shares are issued and outstanding, 200,000 shares have been designated Voting Redeemable Convertible Series B Preferred Stock, of which no shares are issued and outstanding, and 100,000 shares have been designated Non-Voting Redeemable Convertible Series C Preferred Stock (“Series C Preferred Stock”), of which 23,700 shares are issued and outstanding. Holders of the Series C Preferred Stock are entitled to receive, upon liquidation, payment of \$5.00 per share of Series C Preferred Stock prior to any payment to common shareholders. Holders of Series C Preferred Stock are entitled to dividends, if and when declared by the board of directors, at the rate of \$0.50 per share per annum, prior to payment of dividends to common shareholders.

Furthermore, our board of directors has the right, without stockholder approval, to issue additional preferred stock with voting, dividend, conversion, liquidation or other rights which could adversely affect the voting power and equity interest of the holders of common stock, which could be issued with the right to more than one vote per share,

and could be utilized as a method of discouraging, delaying or preventing a change of control. The possible negative impact on takeover attempts could adversely affect the price of our common stock. Although we have no present intention to issue any additional shares of preferred stock or to create any additional series of preferred stock, we may issue such shares in the future.

We have a staggered board of directors, which could delay or prevent a change of control that may favor shareholders.

Our Board of Directors is divided into three classes and our Board members are elected for terms that are staggered. This could discourage the efforts by others to obtain control of the Company. The possible negative impact on takeover attempts could adversely affect the price of our common stock.

Item 1B. Unresolved Staff Comments

Not applicable.

Item 2. Properties.

Our executive offices and warehouse facilities are located at 95 Jefryn Boulevard, Deer Park, New York, 11729. We lease our facilities from Great American Realty of Jefryn Blvd., LLC (“Great American”), an entity owned equally by Ira Levy, Surge’s president, Steven Lubman, Surge’s vice president and one of its former directors, Mark Siegel. Our lease is through September 30, 2020 and our monthly rent is \$13,777. Our monthly rent will increase over the 10 year term, reaching \$15,516 in the final year. We occupy approximately 23,250 square feet of office space and warehouse space. The rental rate is typical for the type and location of Surge’s and Challenge’s facilities.

In June 2013, the Company entered into a lease to rent office space in Hong Kong for two years. Annual rental payments are approximately \$51,250.

Item 3. Legal Proceedings.

There are no legal proceedings to which the Company or any of its property is the subject.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market For Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Shares of our common stock are quoted on the OTCQB market maintained by OTC Markets Group under the symbol “SPRS”. Trading in our common stock is limited.

For the periods indicated, the following table sets forth the high and low bid prices per share of our common stock. These prices represent inter-dealer quotations without retail markup, markdown, or commission and may not necessarily represent actual transactions.

<u>Fiscal Quarter</u>	<u>High</u>	<u>Low</u>
2012 First Quarter	\$ 0.84	\$ 0.63
2012 Second Quarter	\$ 0.80	\$ 0.35
2012 Third Quarter	\$ 0.75	\$ 0.30
2012 Fourth Quarter	\$ 0.51	\$ 0.38
2013 First Quarter	\$ 0.56	\$ 0.37
2013 Second Quarter	\$ 0.74	\$ 0.51
2013 Third Quarter	\$ 0.80	\$ 0.56
2013 Fourth Quarter	\$ 0.93	\$ 0.68

As of the date of the filing of this report, there are issued and outstanding 9,060,012 shares of common stock.

As of the date of the filing of this report, there are approximately 217 holders of record of our common stock.

Dividends

We have not declared any cash dividends on our common stock since inception and do not anticipate paying such dividends in the foreseeable future. We plan to retain any future earnings for use in our business operations. Any decisions as to future payment of cash dividends will depend on our earnings and financial position and such other factors as the Board of Directors deems relevant.

Equity Compensation Plan Information

The following table provides information as of November 30, 2013 with respect to the shares of common stock that may be issued under our existing equity compensation plans:

<u>Plan Category</u>	<u>Number of securities to be issued upon exercise of outstanding options, warrants and rights</u> <u>(a)</u>	<u>Weighted-average exercise price of outstanding options, warrants and rights</u> <u>(b)</u>	<u>Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))</u> <u>(c)</u>
Equity compensation plan approved by security holders (1) ..	878,000	0.46	597,000
Equity compensation plan not yet approved by security holders	-	-	-
Total	878,000		597,000

(1) Represents the Company’s 2010 Incentive Stock Plan.

Recent Sales Of Unregistered Securities.

None.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

None.

Item 6. Selected Financial Data

We are a smaller reporting company and therefore, we are not required to provide information required by this Item of Form 10-K.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward-looking statements. All statements other than statements of historical facts contained herein, including statements regarding our future results of operations and financial position, business strategy and plans and objectives of management for future operations, are forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements.

In some cases, forward-looking statements can be identified by terms such as "may," "will," "should," "expects," "plans," "anticipates," "could," "intends," "target," "projects," "contemplates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of these terms or other similar words. These statements are only predictions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our business, financial condition and results of operations. We discuss many of the risks in greater detail under the heading "Risk Factors." Also, these forward-looking statements represent our estimates and assumptions only as of the date of the filing of this report. Except as required by law, we assume no obligation to update any forward-looking statements after the date of the filing of this report.

Overview

The Company operates with two sales groups, Surge Components ("Surge") and Challenge Electronics ("Challenge"). Surge is a supplier of electronic products and components. These products include capacitors, which are electrical energy storage devices, and discrete semiconductor components, such as rectifiers, transistors and diodes, which are single function low power semiconductor products that are packaged alone as compared to integrated circuits such as microprocessors. The products sold by Surge are typically utilized in the electronic circuitry of diverse products, including, but not limited to, automobiles, audio products, temperature control products, lighting products, energy related products, computer related products, various types of consumer products, garage door openers, household appliances, power supplies and security equipment. These products are sold to both original equipment manufacturers, commonly referred to as OEMs, who incorporate them into their products, and to distributors of the lines of products we sell, who resell these products within their customer base. These products are manufactured predominantly in Asia by approximately sixteen independent manufacturers. We act as the master distribution agent utilizing independent sales representative organizations in North America to sell and market the products for one such manufacturer pursuant to a written agreement. When we act as a sales agent, our supplier who sold the product to the customer that we introduced to our supplier pays us a commission. The amount of the commission is determined on a sale by sale basis depending on the profit margin of the product. Commission revenue totaled \$643,868 and \$417,528 for the fiscal year ended November 30, 2013 and November 30, 2012 respectively.

Challenge engages in the sale of electronic components, including audible components, alarms, chimes and battery related products. Challenge has increased the types of products it sells because some of its suppliers introduced new products, and it has also sourced other products from new suppliers. As a result, we are continually trying to expand our product line. In 2002, we started to import products and sold these under the Challenge name. It started with a line of transducers, and then we added battery snaps, and coin cell holders. Since 2002, we have increased our imported private label product mix to include buzzers, speakers, microphones, resonators, filters, and discriminators. Our suppliers customize many of the products we sell for many customers based on the customers' own designs and

those our suppliers redesign for them at our suppliers' factories. We have an experienced design engineer on our staff with thirty years of experience who works with our suppliers on such redesigns. We continue to expand the product mix we sell. We sell these products through independent representatives and are also working with local, regional, and national distributors to sell these products to local accounts in every state.

The Company has a Hong Kong office to effectively handle the transfer business from United States customers purchasing and manufacturing in Asia after designing the products in the United States. This office has strengthened the Company's global capabilities and service to its customer base.

The electronic components industry has changed, from one of strong demand to now one of moderate demand. Management expects 2014 to continue with the moderate demand for components that it experienced in 2013. Due to this worldwide reduction in demand, the Company could feel the effects of potentially reduced demand for its products.

In order for us to grow, we will depend on, among other things, the continued growth of the electronics and semiconductor industries, our ability to withstand intense price competition, our ability to obtain new customers, our ability to retain and attract sales and other personnel in order to expand our marketing capabilities, our ability to secure adequate sources of products, which are in demand on commercially reasonable terms, our success in managing growth, including monitoring an expanded level of operations and controlling costs, and the availability of adequate financing.

Critical Accounting Policies

Accounts Receivable

The allowance for doubtful accounts is based on the Company's assessment of the collectability of specific customer accounts and an assessment of international, political and economic risk as well as the aging of the accounts receivable. If there is a change in actual defaults from the Company's historical experience, the Company's estimates of recoverability of amounts due could be affected and the Company would adjust the allowance accordingly.

Revenue Recognition

Revenue is recognized when persuasive evidence of an arrangement exists, delivery has occurred, the price is fixed and determinable, collectability is reasonably assured and title and risk of loss have been transferred to the customer. This occurs when product is shipped from the Company's warehouse. For direct shipments from our suppliers to our customer, revenue is recognized when product is shipped from the Company's supplier. The Company acts as a sales agent for certain customers buying direct from one of its suppliers. The Company reports these commissions as revenues in the period earned.

The Company performs ongoing credit evaluations of its customers and maintains reserves for potential credit losses.

Inventory Valuation

Inventories are recorded at the lower of cost or market. Write-downs of inventories to market value are based on stock rotation, historical sales requirements and obsolescence as well as in the changes in the backlog. Reserves required for obsolescence were not material in any of the periods in the financial statements presented. If market conditions are less favorable than those projected by management, additional write-downs of inventories could be required. For example, each additional 1% of obsolete inventory would reduce operating income by approximately \$37,000.

The Company does not have price protection agreements with any of its vendors and assumes the risk of changes in the prices of its products. The Company does not believe there to be a significant risk with regards to the lack of price protection agreements as many of its inventory items are purchased to fulfill purchase orders received.

Income Taxes

We have made a number of estimates and assumptions relating to the reporting of a deferred income tax asset to prepare our financial statements in accordance with generally accepted accounting principles. These estimates have a significant impact on our valuation allowance relating to deferred income taxes. Our estimates could materially impact the financial statements.

Results of Operations

Consolidated net sales for the fiscal year ended November 30, 2013 increased by \$2,966,781 or 13.3%, to \$25,290,945 as compared to net sales of \$22,324,164 for the fiscal year ended November 30, 2012. We largely attribute the increase in net sales to the inclusion of one of our parts in an existing customer's new product, as well as an increase in business with new customers, offset by decreases in sales by two of the Company's distributors.

Our gross profit for the fiscal year ended November 30, 2013 increased by \$115,649 to \$6,961,318, or 1.7%, as compared to \$6,845,669 for the fiscal year ended November 30, 2012. Gross margin as a percentage of net sales decreased to 27.5% for the fiscal year ended November 30, 2013 compared to 30.7% for the fiscal year ended November 30, 2012. The Company attributes the increase in gross profit to the increase in sales and attributes the decrease in profit margin to certain customers having a high volume of sales for products with a lower gross profit margin in fiscal 2013 as compared to fiscal 2012.

Selling and shipping expenses for the fiscal year ended November 30, 2013 was \$2,172,867, an increase of \$32,292, or 1.5%, as compared to \$2,140,575 for the fiscal year ended November 30, 2012. Specifically the increase is due to additional salaries for sales persons, and selling expenses such as travel, offset by a decrease in commission expenses (more non-commissionable sales) and freight.

General and administrative expenses for the fiscal year ended November 30, 2013 was \$3,345,280, an increase of \$154,102, or 4.8%, as compared to \$3,191,178 for the fiscal year ended November 30, 2012. The increase is due to the hiring of additional employees and increased costs of insurance and rent, an increase in allowance for doubtful accounts as well as increases in computer and directors fees as partially offset by decreases in professional fees and office and maintenance expenses.

Depreciation expense for the fiscal year ended November 30, 2013 was \$55,151, a decrease of \$1,549 or 2.7%, as compared to \$56,700 for the fiscal year ended November 30, 2012. The decrease is due to assets becoming fully depreciated during the fiscal year ended November 30, 2013.

Investment income for the fiscal year ended November 30, 2013 was \$4,244, compared to \$2,744 for the fiscal year ended November 30, 2012. We attribute the increase of \$1,500, or 54.7%, to additional cash being placed in a money market account during the fiscal year ended November 30, 2013.

Income taxes for the fiscal year ended November 30, 2013 was \$147,474, an increase of \$194,789 or 411.7% as compared to a tax benefit of \$47,315 in expense for the fiscal year ended November 30, 2012. The increase is a result of management's revised estimate of future taxable income and the related impact on the reported deferred tax. This change in the valuation allowance is based on management estimates of future taxable income. The degree of variability inherent in the estimates of future taxable income is significant and subject to change in the near term. The Company reviews its estimates of future taxable income in each reporting period and adjustments to the valuation allowance are reflected in the current operations.

As a result of the foregoing, net income for the fiscal year ended November 30, 2013 was \$1,244,790, compared to the net income of \$1,507,275 for the fiscal year ended November 30, 2012.

Liquidity and Capital Resources

As of November 30, 2013 we had cash of \$4,288,090, and working capital of \$9,099,439. We believe that our working capital levels are adequate to meet our operating requirements during the next twelve months.

During the fiscal year ended November 30, 2013, we had net cash flow from operating activities of \$893,925, as compared to net cash flow from operating activities of \$1,551,539 for the fiscal year ended November 30, 2012. The decrease in cash flow from operating activities resulted from a decrease in net income, an increase in accounts receivable, prepaid expenses and inventory due to an increase in excess inventory that we hold for certain customers, partially offset by increases in accounts payable and accrued expenses.

We had net cash flow used in investing activities of \$49,799 for the fiscal year ended November 30, 2013, as compared to net cash flow used in investing activities of \$19,280 for the fiscal year ended November 30, 2012. The Company purchased new equipment and furniture for its new offices in Hong Kong during the fiscal year ended November 30, 2013.

We had net cash flows provided by financing activities of \$0 for year ended November 30, 2013, as compared to net cash flow provided by financing activities of \$6,250 for the year ended November 30, 2012.

As a result of the foregoing, the Company had a net increase in cash of \$844,126 for the fiscal year ended November 30, 2013, as compared to a net increase in cash of \$1,538,509 for the fiscal year ended November 30, 2012.

In June 2011, the Company replaced its existing credit line with a line of credit with JP Morgan Chase Bank totaling \$1,000,000. Borrowings under the line accrue interest at 2.56% over the LIBOR rate. The line was collateralized by all the Company's assets and included working capital and tangible net worth covenants. The credit line expired in March 2013. The Company did not renew the credit line since it does not believe such additional funds are required at this time.

The Company intends to maintain its current cash along with cash generated from operations to fund its current operations and to execute its plans, which may include potential merger and acquisition activities and investments to expand the Company's core businesses.

In the first quarter of 2014 the Company lost a customer which the Company expects will result in a decrease in sales from this customer of approximately \$700,000 in fiscal 2014.

The table below sets forth our contractual obligations, including long-term debt, operating leases and other long-term obligations, as of November 30, 2013:

	Total	Payments due			
		0 – 12 Months	13 – 36 Months	37 – 60 Months	More than 60 Months
Contractual Obligations					
Long-term debt	\$ -	\$ --	\$ --	\$ --	\$ --
Operating leases	\$ 1,282,647	217,109	371,659	355,583	338,296
Employment agreements	\$ 300,000	300,000	--	--	--
Total obligations.....	\$ 1,582,647	\$ 517,109	\$ 371,659	\$ 355,583	\$ 338,296

Inflation

In the past two fiscal years, inflation has not had a significant impact on our business. However, any significant increase in inflation and interest rates could have a significant effect on the economy in general and, thereby, could affect our future operating results.

Off Balance Sheet Arrangements

We do not have any off balance sheet arrangements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

We are a smaller reporting company and therefore, we are not required to provide information required by this Item of Form 10-K.

Item 8. Financial Statements and Supplementary Information

Our financial statements, together with the independent registered public accounting firm's report of Seligson & Giannattasio, LLP, begin on page F-1, immediately after the signature page.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures.

We maintain "disclosure controls and procedures," as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"), that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives

of the disclosure controls and procedures are met. Additionally, in designing disclosure controls and procedures, our management was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

As of November 30, 2013 we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in our reports under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified reporting the SEC's rules and forms and that such information is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Management's Report of Internal Control over Financial Reporting.

We are responsible for establishing and maintaining adequate internal control over financial reporting in accordance with Exchange Act Rule 13a-15. With the participation of our Chief Executive Officer and Chief Financial Officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting as of November 30, 2013 based on the criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that our internal control over financial reporting was effective as of November 30, 2013. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

Changes in Internal Controls.

During the quarter ended November 30, 2013, there were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers, and Corporate Governance.

Our board of directors is classified into three classes, with the term of office of one class expiring each year. The term of Class A directors expires at the Company's annual meeting of shareholders to be held in 2016, the term of Class B directors expires at the Company's annual meeting of shareholders to be held in 2015, and the term of office of Class C directors expires at the Company's annual meeting of shareholders to be held in 2014. Our executive officers and directors, and their ages, positions and offices with us are as follows:

Name	Age	Position and Offices with Surge
Ira Levy	57	Chief Executive Officer, Chief Financial Officer, President and Class A Director
Steven J. Lubman	58	Vice President, Secretary and Class A Director
Alan Plafker*	55	Class B Director, Member of Compensation Committee, Nominating and Corporate Governance Committee and Audit Committee
David Siegel	88	Class B Director
Lawrence Chariton*	56	Class C Director, Member of Compensation Committee, Nominating and Corporate Governance Committee and Audit Committee
Gary Jacobs*	56	Class C Director, Member of Compensation Committee, Nominating and Corporate Governance Committee and Audit Committee

* Independent director

Ira Levy has served as President, Chief Executive Officer and a director of Surge Components since its inception in November 1981, and as Chief Financial Officer since March 2010. From 1976 to 1981, Mr. Levy was employed by Capar Components Corp., an importer and supplier of capacitor and resistor products.

Steven J. Lubman has served as Surge Components' Vice President, Secretary and a director since our inception in November 1981. From 1975 to 1981, Mr. Lubman was employed by Capar Components, Inc.

Alan Plafker has served as a director since June 2001. Since July 2000, Mr. Plafker has been the President and Chief Executive Officer of Member Brokerage Service LLC, a credit union service organization owned by Melrose Credit Union. Mr. Plafker has over 20 years of management experience in the insurance and credit union industries. Since 2009, Mr. Plafker has served on the board of directors of the NY Independent Livery Drivers Benefit Fund. He is also the current President of the NY Professional Insurance Agents Association and has served on its board of directors since 2002. He has also served the association in officer positions as Treasurer and Vice President over the past three years.

David Siegel has served as a director since 1983, as well as Chairman of the Board from 1983 to February 2000. Mr. Siegel also served on the board of directors of Micronetics, Inc. (NASDAQ:NOIZ), a publicly traded company that manufactures microwave and radio frequency (RF) components. David Siegel is the father-in-law of Ira Levy.

Lawrence Chariton has served as a director since August 2001. Since 1981, Mr. Chariton has worked as a Sales Manager for Linda Shop, a retail jewelry business, and now does the same for Great American Jewelry, and is involved in charitable organizations benefiting the State of Israel. Mr. Chariton was also a director of St. Joseph's Hospital in Bethpage, Long Island. Mr. Chariton graduated from Hofstra University in 1979 with a Bachelor's Degree in accounting.

Gary M. Jacobs has served as a director since July 2003. He currently serves as a consultant to several companies, providing advisory services in the areas of turn-around and financial and operational efficiencies. Mr. Jacobs served as the Chief Financial Officer of Chem Rx from June 2008 until March 2011. From May 2005 to June 2008, Mr. Jacobs was the Chief Financial Officer and Chief Operating Officer of Gold Force International, Ltd., a supplier of gold, silver and pearl jewelry to U.S. retail chains, and Karat Platinum LLC, a developer of an alternative to platinum. From July 2003 to April 2005, Mr. Jacobs served as President of The Innovative Companies, LLC, a supplier of natural stone. From October 2001 to February 2003, Mr. Jacobs served as Executive Vice President of Operations and Corporate Secretary of The Hain Celestial Group, Inc., a food and personal care products company. Mr. Jacobs also served as Executive Vice President of Finance, Chief Financial Officer and Treasurer of The Hain Celestial Group, Inc. from September 1998 to October 2001. Prior to that, Mr. Jacobs was the Chief Financial Officer of Graham Field Health Products, Inc., a manufacturing and distribution company. Mr. Jacobs was

employed for 13 years as a member of the audit staff of Ernst & Young LLP, where he attained the position of senior manager. He is a certified public accountant and holds a Bachelor's of Business Administration in Accounting from Adelphi University.

The Company believes that each of its directors has the experience, qualifications, attributes and skills that enable them to make a positive contribution to our board for the following reasons:

Both Mr. Levy and Mr. Lubman have been in the electronic components business for over 30 years and have a vast knowledge of this business. Mr. Levy's and Mr. Lubman's experience in and knowledge of the electronics components business led to the conclusion that Mr. Levy and Mr. Lubman should serve on the Company's board given the Company's business and structure. Their knowledge of our business enables them to bring keen insight to the board.

Alan Plafker has been an executive in the insurance industry for over 20 years and is knowledgeable in financial matters, including reviewing financial statements. Mr. Plafker's experience in the insurance industry and knowledge of financial matters led to the conclusion that he should serve on the Company's board, given the Company's business and structure.

David Siegel has served on the boards of other public companies and is very familiar with the required public filings that a public company must make and as a result he is able to easily communicate with the company's advisors, including their attorneys. Mr. Siegel's experience on the board of directors of other public companies and his ability to communicate with the Company's advisers led to the conclusion that he should serve on the Company's board, given the Company's business and structure.

Lawrence Chariton experience as a sales manager of a jewelry store gives him experience in running a small business like ours. Mr. Chariton's experience running a small business led to the conclusion that he should serve on the Company's board, given the Company's business and structure.

Gary Jacobs's experience as a certified public accountant and Chief Financial Officer makes him extremely qualified to review and discuss the Company's financial results and to make recommendations regarding the Company's financial position. Mr. Jacobs's experience as a certified public accountant and Chief Financial Officer led to the conclusion that he should serve on the Company's board, given the Company's business and structure.

Board Leadership Structure and Role in Risk Oversight

Although we have not adopted a formal policy on whether the Chairman and Chief Executive Officer positions should be separate or combined, we have traditionally determined that it is in the best interests of the Company and its shareholders to combine these roles. Mr. Levy has served as our Chairman since November 1981. Due to the small size and early stage of the Company, we believe it is currently most effective to have the Chairman and Chief Executive Officer positions combined.

Our board of directors is primarily responsible for overseeing our risk management processes on behalf of our board of directors. The board of directors receives and reviews periodic reports from management, auditors, legal counsel, and others, as considered appropriate regarding our company's assessment of risks. The board of directors focuses on the most significant risks facing our company and our company's general risk management strategy, and also ensures that risks undertaken by our Company are consistent with the board's appetite for risk. While the board oversees our company's risk management, management is responsible for day-to-day risk management processes. We believe this division of responsibilities is the most effective approach for addressing the risks facing our company and that our board leadership structure supports this approach.

Audit Committee

The audit committee consists of the following three members: Gary Jacobs, Alan Plafker and Lawrence Chariton. Mr. Jacobs serves as the chairman of the audit committee. The Company's board of directors has determined that Gary Jacobs is the audit committee financial expert and chairman of the committee. The audit committee members are "independent" as that term is defined under the Nasdaq Marketplace Rules.

Nominating and Corporate Governance Committee

The nominating and corporate governance committee consists of the following three members: Gary Jacobs, Alan Plafker and Lawrence Chariton. Mr. Jacobs serves as the chairman of the nominating and corporate governance committee.

Compensation Committee

The compensation committee consists of the following three members: Gary Jacobs, Alan Plafker and Lawrence Chariton. Mr. Jacobs serves as the chairman of the compensation committee.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires that our officers and directors, and persons who own more than ten percent of a registered class of our equity securities, file reports of ownership and changes in ownership with the Securities and Exchange Commission. Officers, directors and persons owning more than ten percent of such securities are required by Commission regulation to file with the Commission and furnish the Company with copies of all reports required under Section 16(a) of the Exchange Act. To our knowledge, based solely upon our review of the copies of such reports furnished to us, during the fiscal year ended November 30, 2013, all Section 16(a) filing requirements applicable to our officers, directors and greater than 10% beneficial owners were complied with the exception of one late Form 4 for Alan Plafker and two late Forms 4 for Michael Tofias.

Code of Ethics

We have adopted a corporate Code of Ethics. The text of our Code of Ethics, which applies to our employees, officers and directors, is posted in the “Investor Relations” section of our website at www.surgecomponents.com. A copy of our Code of Conduct and Ethics is also available in print, free of charge, upon written request to 95 East Jeffry Boulevard, Deer Park, New York 11729, Attention: Ira Levy.

Changes in Nominating Procedures

None.

Item 11. Executive Compensation.

The following table sets forth information regarding compensation paid to our executive officers for the years ended November 30, 2013 and November 30, 2012:

Name and Position	Year	Salary	Bonus	All Other Compensation (\$)	Total
Ira Levy	2013	\$ 225,000	\$ 100,000	\$ 59,142(1)	\$ 387,068
President CEO and CFO	2012	\$ 225,000	\$ 100,000	\$ 62,068(1)	\$ 387,068
Steven J. Lubman	2013	\$ 225,000	\$ 100,000	\$ 55,308(1)	\$ 379,233
Vice President and Secretary	2012	\$ 225,000	\$ 100,000	\$ 54,233(1)	\$ 379,233

(1) Includes payments for medical insurance, automobile allowance and insurance and life insurance.

Employment Agreements

The Company has entered into employment agreements (the “Levy Agreement” and the “Lubman Agreement”, individually, and collectively, the “Employment Agreements”) with Ira Levy and Steven Lubman (the “Executives”), respectively, with terms through July 30, 2014(renewable on each July 30th for an additional one year period), which provides the Executives with a base salary of \$225,000 (“Base Salary”).

The Company’s compensation committee may award Messrs. Levy and Lubman with bonuses. Pursuant to the employment agreements, Messrs. Levy and Lubman are prohibited from engaging in activities which are competitive with those of the Company during the employment and for one year following termination. The agreements further provide that in the event of a change of control, as defined, or a change in ownership of at least

25% of the issued and outstanding stock of the Company, and such issuance was not approved by either officer, or if they are not elected to the Board of Directors of the Company and/or are not elected as an officer of the Company, then such officer may elect to terminate his employment agreement. If he elects to terminate the agreement, he will receive 2.99 times his annual compensation (or such other amount then permitted under the Internal Revenue Code without an excess penalty), in addition to the remainder of his compensation under his existing employment agreement. In addition, if the Company makes or receives a “firm commitment” for a public offering of Common Shares, each officer will receive a warrant to purchase, at a nominal value, up to 9.5% of the Company’s common stock, provided they do not voluntarily terminate employment.

The Employment Agreements provide for the following payments upon each of the following circumstances in which the Executives’ employment could end:

- (a) Payment upon termination due to disability** – if either of the Employment Agreements is terminated by the Company by reason of any physical or mental illness so that the Executives are unable to perform the services required by them pursuant to the Employment Agreements for a continuous period of 4 months, or for an aggregate of 6 months during any consecutive 12 month period, then the Company shall pay to the Executives his Base Salary then in effect along with all other fringe benefits for a period of 1 year following the date of such termination.
- (b) Payment upon termination due to death** – if either of the Employment Agreements is automatically terminated upon the death of the Executives, the Company shall pay to the Executive’s estate his Base Salary then in effect for a period of 1 year following the date of such termination.
- (c) Payment upon termination for “cause”** – the Company is not obligated to make any further payments to the Executives upon their termination for “cause.” The term “cause” means any event that the Executives are guilty of (i) reckless disregard to perform his duties as set forth in each Executive’s respective Agreement, (ii) willful malfeasance, or (iii) any act of dishonesty by the Executives with respect to the Company.
- (d) Payment upon termination without “cause”** –
 - (i)** if the Company terminates the Levy Agreement without cause, then the Company (i) is obligated to pay Mr. Levy any and all Base Salary and bonus amounts payable to Mr. Levy for the remainder of the term, and (ii) shall continue for the remainder of the term to permit Mr. Levy to receive or participate in all fringe benefits available to him pursuant to the Levy Agreement; provided, however, that any fringe benefits which Mr. Levy receives will be reduced by any payments or fringe benefits Mr. Levy receives during the remainder of the term from any other source of employment which is unaffiliated with the Company.
 - (ii)** If the Company terminates the Lubman Agreement without cause, the Company (i) is obligated to pay Mr. Lubman any and all Base Salary and bonus amounts payable to Mr. Lubman for the remainder of the term, and (ii) permit him to receive or participate in all fringe benefits available to him pursuant to the Lubman Agreement; provided, however, that any fringe benefits which Mr. Lubman receives will be reduced by any payments or fringe benefits Mr. Lubman receives during the remainder of the term from any other source of employment which is unaffiliated with the Company.
- (e) Payment upon a “change of control”** - if either of the Executives elects to terminate his employment in the event of a change of control, the Company shall pay the Executives, in addition to the remainder of their annual compensation, a “parachute payment” as said term is defined in Section 280G of the Internal Revenue Code of 1986, as amended (the “Code”) in an amount equal to 2.99 times the respective Executive’s annual compensation, including the Base Salary, bonus compensation and other remuneration and fringe benefits, if any. A “change in control” occurs when the Executives are not elected to the Board of Directors of the Company, and/or is not elected as an officer of the Company and/or there has been a change in the ownership following the Company’s 1996 public offering of at least 25% of the issued and outstanding stock of the Company, and such issuance was not approved by the Executives. No change in control, as defined in the Employment Agreements, has occurred.

Director Compensation for Year Ending November 30, 2013

The following table summarizes the compensation for our non-employee board of directors for the fiscal year ended November 30, 2013. All compensation paid to our employee directors is included under the summary compensation table above.

Name	Fees Earned or Paid			All Other Compensation (\$)	Total (\$)
	in Cash (\$)	Stock Awards (\$)	Option Awards (\$)		
Alan Plafker.....	24,000	-	3,870	-	27,870
David Siegel.....	24,000	-	3,870	-	27,870
Lawrence Chariton.....	24,000	-	3,870	-	27,870
Gary Jacobs.....	24,000	-	3,870	-	27,870

Outstanding Equity Awards at November 30, 2013

Name	Number of securities underlying options (#)	Equity Incentive Plan Awards:		
		Number of Securities Underlying Unexercised Options (#)	Option Exercise Price (\$)	Option Expiration Date
Ira Levy.....	-	250,000(1)	0.25	May 2015
Steven Lubman.....	-	250,000(1)	0.25	May 2015
Ira Levy.....	-	50,000(2)	0.82	November 2018
Steven Lubman.....	-	25,000(3)	0.82	November 2018

(1) 250,000 options were issued on May 6, 2010 and vested one year after issuance.

(2) 50,000 options were issued on November 27, 2013 and vested immediately.

(3) 25,000 options were issued on November 27, 2013 and vested immediately.

Item 12. Security Ownership of Certain Beneficial Owners and Management.

Under Rule 13d-3, a beneficial owner of a security includes any person who, directly or indirectly, through any contract, arrangement, understanding, relationship, or otherwise has or shares: (i) voting power, which includes the power to vote, or to direct the voting of shares; and (ii) investment power, which includes the power to dispose or direct the disposition of shares. Certain shares may be deemed to be beneficially owned by more than one person (if, for example, persons share the power to vote or the power to dispose of the shares). In addition, shares are deemed to be beneficially owned by a person if the person has the right to acquire the shares (for example, upon exercise of an option) within 60 days of the date as of which the information is provided. In computing the percentage ownership of any person, the amount of shares outstanding is deemed to include the amount of shares beneficially owned by such person (and only such person) by reason of these acquisition rights.

The following table sets forth as of February 13, 2014, information regarding the beneficial ownership of our common stock by: (i) each person known by the Company to be the beneficial owner of than five percent of the outstanding shares of common stock, (ii) each of our directors and officers and (iii) all officers and directors, as a group:

Name and address of Beneficial Owner (1)	Amount and Nature of Common Stock Beneficially Owned	Percentage of Common Stock Beneficially Owned (2)
Ira Levy	991,368(3)(7)	10.94%
Steven J. Lubman	825,000(3)(6)	9.10%
Lawrence Chariton	162,000(4)(6)	1.78%
Alan Plafker	25,000(6)	*
David Siegel	117,000(4)(6)	1.29%
Gary Jacobs	112,000(4)(5)(6)	1.23%
All directors and executive officers as a group (6 persons)	2,232,368	24.06%
Michael Tofias 325 North End Avenue, Apt. 25B New York, NY 10282	1,664,176	18.37%

* Less than 1%

(1) Except as otherwise indicated, the address of each beneficial owner is c/o Surge Components, Inc., 95 East Jefryn Boulevard, Deer Park, NY 11729.

(2) Applicable percentage ownership is based on 9,060,012 shares of common stock outstanding as of February 13, 2014.

(3) Includes 250,000 shares issuable upon exercise of options with an exercise price of \$0.25, because the options are exercisable within 60 days.

(4) Includes 25,000 shares issuable upon exercise of options with an exercise price of \$0.25, because the options are exercisable within 60 days.

(5) Includes 50,000 shares issuable upon exercise of options with an exercise price of \$0.51, because the options are exercisable within 60 days.

(6) Includes 25,000 shares issuable upon exercise of options with an exercise price of \$0.82, because the options are exercisable within 60 days.

(7) Includes 50,000 shares issuable upon exercise of options with an exercise price of \$0.82. because the options are exercisable within 60 days.

Item 13. Certain Relationships And Related Transactions, and Director Independence.

Certain Relationships and Related Transactions

Surge and Challenge each lease their current executive offices from Great American Realty of Jefryn Blvd., LLC, an entity owned equally by Ira Levy, our Chief Executive Officer, President and Secretary and Steven Lubman, our vice president and one other individual who is not an executive officer or director of the Company. Our lease is through September 2020 and our annual rent payments were approximately \$255,018 and \$223,237 for fiscal 2013 and 2012, respectively.

Director Independence

Lawrence Chariton, Alan Plafker, and Gary Jacobs are independent directors as that term is defined under the Nasdaq Marketplace Rules.

Item 14. Principal Accounting Fees And Services

Audit Fees

Audit Fees represent the aggregate fees for professional services for the audit of our annual financial statements and review of financial statements included in our quarterly reports on Form 10-Q or services that are normally provided in connection with statutory and regulatory filings or engagements for those fiscal years. For the years ended November 30, 2013 and 2012, we paid Seligson & Giannattasio, LLP \$136,340 and \$100,000, respectively.

Audit-Related Fees

For the years ended November 30, 2013 and 2012, we paid Seligson & Giannattasio, LLP \$0 and \$0, respectively, for audit-related services.

Tax Fees

For the years ended November 30, 2013 and 2012, we paid Seligson & Giannattasio, LLP \$12,000 and \$8,000, respectively, for tax related services.

All Other Fees

For the years ended November 30, 2013 and 2012, we paid Seligson & Giannattasio, LLP \$0 and \$0, respectively, for all other services.

The audit committee on an annual basis reviews audit and non-audit services performed by the independent registered public accounting firm. All audit and non-audit services are pre-approved by the audit committee, which considers, among other things, the possible effect of the performance of such services on the auditors' independence. The audit committee has considered the role of Seligson & Giannattasio, LLP in providing services to us for the fiscal year ended November 30, 2013 and has concluded that such services are compatible with Seligson & Giannattasio, LLP's independence as the Company's independent registered public accounting firm.

PART IV

Item 15. Exhibits and Financial Statement Schedules.

The following documents are filed as a part of this report or incorporated herein by reference:

1. Our Consolidated Financial Statements commencing on page F-1 of this Annual Report.

2. Exhibits:

The following documents are included as exhibits to this Annual Report:

<u>Exhibit Number</u>	<u>Description</u>
3.1	Articles of Incorporation of Surge Components, Inc. (filed as exhibit to Form 8-K filed on September 16, 2010 and incorporated herein by reference)
3.2	By-Laws of Surge Components, Inc. (filed as exhibit to Form 8-K filed on September 16, 2010 and incorporated herein by reference)
10.1	Lease between Surge Components and Great American Realty of 95 Jefryn BLVD., LLC (filed as exhibit to Amendment No. 1 to Form 10 filed on August 20, 2010 and incorporated herein by reference)
10.2	Lease between Challenge Electronics and Great American Realty of 95 Jefryn BLVD., LLC (filed as exhibit to Amendment No. 1 to Form 10 filed on August 20, 2010 and incorporated herein by reference)

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To The Board of Directors and Stockholders of
Surge Components, Inc.

We have audited the accompanying consolidated balance sheets of Surge Components, Inc. and subsidiaries as of November 30, 2013 and 2012 and the related consolidated statements of income, changes in shareholders' equity and cash flows for each of the years in the two year period ended November 30, 2013. Surge Components, Inc. and subsidiaries management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Surge Components, Inc. and subsidiaries as of November 30, 2013 and 2012 and the consolidated results of their operations and their consolidated cash flows for each of the years in the two year period ended November 30, 2013 in conformity with accounting principles generally accepted in the United States of America.

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE A – ORGANIZATION, DESCRIPTION OF COMPANY’S BUSINESS AND BASIS OF PRESENTATION

Surge Components, Inc. (“Surge”) was incorporated in the State of New York and commenced operations on November 24, 1981 as an importer of electronic products, primarily capacitors and discrete semi-conductors selling to customers located principally throughout North America. On June 24, 1988, Surge formed Challenge/Surge Inc. (“Challenge”), a wholly-owned subsidiary to engage in the sale of electronic component products and sounding devices from established brand manufacturers to customers located principally throughout North America.

In May 2002, Surge and an officer of Surge founded and became sole owners of Surge Components, Limited (“Surge Limited”), a Hong Kong corporation. Under current Hong Kong law, Surge Limited is required to have at least two shareholders. Surge owns 999 shares of the outstanding common stock and the officer of Surge owns 1 share of the outstanding common stock. The officer of Surge has assigned his rights regarding his 1 share to Surge. Surge Limited started doing business in July 2002. Surge Limited operations have been consolidated with the Company. Surge Limited is responsible for the sale of Surge’s products to customers located in Asia.

On August 31, 2010, the Company changed its corporate domicile by merging into a newly-formed corporation, Surge Components, Inc. (Nevada), which was formed in the State of Nevada for that purpose. Surge Components Inc. is the surviving entity. The number of common stock shares authorized for issuance was increased to 75,000,000 shares.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(1) Principles of Consolidation:

The consolidated financial statements include the accounts of Surge, Challenge, and Surge Limited (collectively the “Company”). All material intercompany balances and transactions have been eliminated in consolidation.

(2) Accounts Receivable:

Trade accounts receivable are recorded at the net invoice value and are not interest bearing. The Company considers receivables past due based on the payment terms. The Company reviews its exposure to amounts receivable and reserves specific amounts if collectability is no longer reasonably assured. The Company also reserves a percentage of its trade receivable balance based on collection history and current economic trends that might impact the level of future credit losses. The Company re-evaluates such reserves on a regular basis and adjusts its reserves as needed. Based on the Company’s operating history and customer base, bad debts to date have not been material.

(3) Revenue Recognition:

Revenue is recognized for products sold by the Company when persuasive evidence of an arrangement exists, delivery has occurred, the price is fixed and determinable, collectability is reasonably assured and title and risk of loss have been transferred to the customer. This occurs when product is shipped from the Company’s warehouse.

For direct shipments, revenue is recognized when product is shipped from the Company’s supplier. The Company has a long term supply agreement with one of our suppliers. The Company purchases the merchandise from the supplier and has the supplier directly ship to the customer through a freight forwarder. Title passes to customer upon the merchandise being received by a freight forwarder. Direct shipments were approximately \$2,970,000 and \$3,105,000 for the years ended November 30, 2013 and November 30, 2012 respectively.

The Company also acts as a sales agent to certain customers in North America for one of its suppliers. The Company reports these commissions as revenues in the period earned. Commission revenue totaled \$643,868 and \$417,528 for the years ended November 30, 2013 and November 30, 2012 respectively.

The Company performs ongoing credit evaluations of its customers and maintains reserves for potential credit losses.

The Company and its subsidiaries currently have agreements with several distributors. There are no provisions for the granting of price concessions in any of the agreements. Revenues under these distribution agreements were approximately \$4,440,000 and \$4,051,000 for the years ended November 30, 2013 and November 30, 2012 respectively.

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(4) Inventories:

Inventories, which consist solely of products held for resale, are stated at the lower of cost (first-in, first-out method) or market. Products are included in inventory when the Company obtains title and risk of loss on the products, primarily when shipped from the supplier. Inventory in transit principally from foreign suppliers at November 30, 2013 approximated \$1,685,000. The Company, at November 30, 2013, has a reserve against slow moving and obsolete inventory of \$590,054. From time to time the Company's products are subject to legislation from various authorities on environmental matters.

(5) Depreciation and Amortization:

Fixed assets are recorded at cost. Depreciation is generally calculated on a straight line method and amortization of leasehold improvements is provided for on the straight-line method over the estimated useful lives of the various assets as follows:

Furniture, fixtures and equipment	5 - 7 years
Computer equipment	5 years
Leasehold Improvements	Estimated useful life or lease term, whichever is shorter

Maintenance and repairs are expensed as incurred while renewals and betterments are capitalized.

(6) Concentration of Credit Risk:

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of accounts receivable. The Company maintains substantially all of its cash balances in a limited number of financial institutions. At November 30, 2013 and November 30, 2012, the Company's uninsured cash balances totaled approximately \$2,713,584 and \$1,341,304, respectively.

(7) Income Taxes:

The Company's deferred income taxes arise primarily from the differences in the recording of net operating losses, allowances for bad debts, inventory reserves and depreciation expense for financial reporting and income tax purposes. A valuation allowance is provided when it has been determined to be more likely than not that the likelihood of the realization of deferred tax assets will not be realized. See Note G.

The Company follows the provisions of the Accounting Standards Codification topic, ASC 740, "Income Taxes" (ASC 740). There have been no unrecognized tax benefits and, accordingly, there has been no effect on the Company's financial condition or results of operations as a result of ASC 740.

The Company files income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. The Company is no longer subject to U.S. federal tax examinations for years before fiscal years ending November 30, 2009, and state tax examinations for years before fiscal years ending November 30, 2008. Management does not believe there will be any material changes in our unrecognized tax positions over the next twelve months.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of the date of adoption of ASC 740, there was no accrued interest or penalties associated with any unrecognized tax benefits, nor was any interest expense recognized during the years ended November 30, 2013 and November 30, 2012.

(8) Cash Equivalents:

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

(9) Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(10) Marketing and promotional costs:

Marketing and promotional costs are expensed as incurred and have not been material to date. The Company has contractual arrangements with several of its distributors which provide for cooperative advertising rights to the distributor as a percentage of sales. Cooperative advertising is reflected as a reduction in revenues and has not been material to date.

(11) Fair Value of Financial Instruments:

The carrying amount of cash balances, accounts receivable, accounts payable and accrued expenses approximate their fair value based on the nature of those items. Estimated fair values of financial instruments are determined using available market information and appropriate valuation methodologies. Considerable judgment is required to interpret the market data used to develop the estimates of fair value, and accordingly, the estimates are not necessarily indicative of the amounts that could be realized in a current market exchange.

(12) Shipping Costs

The Company classifies shipping costs as a component of selling expenses. Shipping costs totaled \$14,059 and \$12,746 for the years ended November 30, 2013 and November 30, 2012 respectively.

(13) Earnings Per Share

Basic earnings per share includes no dilution and is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding for the period. The difference between reported basic and diluted weighted-average common shares results from the assumption that all dilutive stock options and convertible preferred stock exercised into common stock. Total potentially dilutive shares excluded from diluted weighted shares outstanding at November 30, 2013 and November 30, 2012 totaled 521,323 and 329,502, respectively.

(14) Stock Based Compensation

Stock Based Compensation to Employees

The Company accounts for its stock-based compensation for employees in accordance with Accounting Standards Codification (“ASC”) 718. The Company recognizes in the statement of operations the grant-date fair value of stock options and other equity-based compensation issued to employees and non-employees over the related vesting period.

Stock Based Compensation to Other than Employees

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with ASC 718. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably determinable. The value of equity instruments issued for consideration other than employee services is determined on the earlier of a performance commitment or completion of performance by the provider of goods or services. In the case of equity instruments issued to consultants, the fair value of the equity instrument is recognized over the term of the consulting agreement.

(15) Reclassifications:

Certain amounts included in 2012 financial statements have been reclassified to conform to the 2013 presentation.

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE C - FIXED ASSETS

Fixed assets consist of the following:

	November 30, 2013	November 30, 2012
Furniture and Fixtures	\$ 322,586	\$ 321,099
Leasehold Improvements	939,648	909,014
Computer Equipment	878,580	976,754
Less-Accumulated Depreciation	(2,065,539)	(2,126,238)
Net Fixed Assets	\$ 75,275	\$ 80,629

Depreciation and amortization expense for the years ended November 30, 2013 and November 30, 2012 was \$55,151 and \$56,700, respectively.

NOTE D - ACCRUED EXPENSES

Accrued expenses consist of the following:

	November 30, 2013	November 30, 2012
Commissions	\$ 290,745	\$ 238,003
Preferred Stock Dividends	188,707	176,857
Interest	102,399	102,399
Other accrued expenses	133,251	83,644
	\$ 715,102	\$ 600,903

In March 2000, the Company completed a \$7,000,000 private placement of convertible notes. The face value of the notes was converted into common stock in July 2001 pursuant to the automatic conversion provisions of the notes. However, approval by holders of the notes was required to convert the interest accrued on the notes to common stock. The accrued interest set forth in the Company's financial statements relates to the portion of the accrued interest for which note holder approval was not obtained and therefore not converted into common stock. No additional interest accrues on these amounts and none of the accrued interest was repaid during any of the periods presented.

NOTE E – RETIREMENT PLAN

In June 1997, the Company adopted a qualified 401(k) retirement plan for all full-time employees who are twenty-one years of age and have completed twelve months of service. The plan allows total employee contributions of up to fifteen percent (15%) of the eligible employee's salary through salary reduction. The Company makes a matching contribution of twenty percent (20%) of each employee's contribution for each dollar of employee deferral up to five percent (5%) of the employee's salary. Net assets for the plan, as estimated by Union Central, Inc., which maintains the plan's records, were approximately \$978,700 at November 30, 2013. Pension expense for the years ended November 30, 2013 and November 30, 2012 was \$11,414 and \$9,143, respectively.

NOTE F – SHAREHOLDERS' EQUITY

[1] Preferred Stock:

In February 1996, the Company amended its Certificate of Incorporation to authorize the issuance of 1,000,000 shares of preferred stock in one or more series. In August 2010, the number of preferred shares authorized for issuance was increased to 5,000,000 shares.

In January 2000, the Company authorized 260,000 shares of preferred stock as Non-Voting Redeemable Convertible Series A Preferred Stock ("Series A Preferred"). None of the Series A preferred stock is outstanding as of November 30, 2013.

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE F – SHAREHOLDERS’ EQUITY (Continued)

In November 2000, the Company authorized 200,000 shares of preferred stock as Voting Redeemable Convertible Series B Preferred Stock (“Series B Preferred”). None of the Series B Preferred Stock is outstanding as of November 30, 2013.

In November 2000, the Company authorized 100,000 shares of preferred stock as Non-Voting Redeemable Convertible Series C Preferred Stock (“Series C Preferred”). Each share of Series C Preferred is automatically convertible into 10 shares of our common stock upon shareholder approval. If the Series C Preferred were converted into common stock on or before April 15, 2001, these shares were entitled to cumulative dividends at the rate of \$.50 per share per annum commencing April 15, 2001 payable on June 30 and December 31 of each year. In November 2000, 70,000 shares of the Series C Preferred were issued in payment of financial consulting services to its investment banker and a shareholder of the Company. In April 2001, 8,000 shares of the Series C Preferred were repurchased and cancelled. Dividends aggregating \$188,707 have not been declared or paid for the semiannual periods ended December 31, 2001 through the semiannual payment due June 30, 2013. The Company has accrued these dividends.

In April 2002, in connection with a Mutual Release, Settlement, Standstill and Non-Disparagement Agreement among other provisions, certain investors transferred back to the Company 252,000 shares of common stock, 19,300 shares of Series C preferred stock, and certain warrants, in exchange for \$225,000. These repurchased shares were cancelled.

In February 2006, the Company settled with a shareholder to repurchase 10,000 shares of Series C Preferred plus accrued dividends for \$50,000.

Pursuant to exchange agreements dated as of March 14, 2011, 9,000 shares of Series C Preferred were returned to the Company for cancellation in exchange for 112,500 shares of common stock.

At November 30, 2013 there are 23,700 shares of Series C Preferred issued and outstanding.

[2] 2010 Incentive Stock Plan

In March 2010, the Company adopted, and in April 2010 the shareholders ratified, the 2010 Incentive Stock Plan (“Stock Plan”). The Stock Plan provides for the grant of options to officers, employees, directors or consultants to the Company to purchase an aggregate of 1,500,000 common shares.

Stock option incentive plan activity for the year ended November 30, 2013 is summarized as follows:

	Shares	Weighted Average Exercise Price
Options outstanding December 1, 2012.....	703,000	\$ 0.29
Options issued in the year ended November 30, 2013.....	175,000	\$ 0.82
Options exercised in the year ended November 30, 2013.....	-	\$ -
Options cancelled in the year ended November 30, 2013.....	-	\$ -
Options outstanding at November 30, 2013.....	878,000	\$ 0.46
Options exercisable at November 30, 2013.....	852,000	\$.044

Stock Compensation

On February 25, 2011, the Company granted stock options to employees to purchase 85,000 shares of the Company’s common stock at an exercise price of \$1.15, the value of the common stock on the date of the grant. These options vest over a three year period and expire in ten years. The fair values of these stock options are estimated at the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions: expected volatility of 60% (based on stock volatility of public company industry peers); average risk-free interest rate of 3.42% (the ten year treasury note rate on the date of the grant); initial expected life of 10 years (based on the term of the options); no expected dividend yield; and amortized over the vesting period.

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE F – SHAREHOLDERS' EQUITY (Continued)

In July 2012, the Company granted a stock option to one non-officer director to purchase 50,000 shares of common stock at an exercise price of \$0.51, the market price of the common stock on the date of the grant. This option vested immediately and expires in five years. The fair value of this stock option is estimated at the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions: expected volatility of 35% (based on stock volatility of public company industry peers); average risk-free interest rate of 0.67% (the five year treasury note rate on the date of the grant); initial expected life of 5 years (based on the term of the options) and no expected dividend yield.

In November 2013, the Company granted a stock option to one employee-director and all non-employee directors to purchase 25,000 shares of common stock, and one employee-director to purchase 50,000 shares of common stock at an exercise price of \$0.82, the market price of the common stock on the date of the grant. This option vested immediately and expires in five years. The fair value of this stock option is estimated at the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions: expected volatility of 18% (based on the Company's historical stock volatility); average risk-free interest rate of 1.36% (the five year treasury note rate on the date of the grant); initial expected life of 5 years (based on the term of the options) and no expected dividend yield.

The weighted average grant date fair value of the stock options granted during the year ended November 30, 2013 was \$0.82. During the year ended November 30, 2013, the Company recorded stock based compensation totaling \$50,333 as a result of these stock option grants.

The intrinsic value of the exercisable options at November 30, 2013 totaled \$323,760. At November 30, 2013 the weighted average remaining life of the stock options is 2.87 years. At November 30, 2013, there was \$5,806 of total unrecognized compensation cost related to the stock options granted under the plan. This cost is expected to be recognized over a weighted average period of .25 years.

[3] Authorized Repurchase:

In November 2002, the Board of Directors authorized the repurchase of up to 1,000,000 Common Shares at a price between \$.04 and \$.045. The Company has not repurchased any shares to date pursuant to such authority.

[4] Compensation of Directors

In May 2010, the Company issued 12,000 shares of its common stock to each non-officer director as compensation for services on the Board of Directors. These shares were valued at \$0.18 per share, the closing price of the common stock on the over-the-counter market. Starting April 1, 2012, the amount directors each receive for their services on the Board of Directors was increased from \$200 a month to \$2,000 a month. In May 2010, options were granted to each non-officer director to purchase 25,000 shares of common stock at an exercise price of \$0.25. In July 2012, a stock option was granted to one non-officer director to purchase 50,000 shares of common stock at an exercise price of \$0.51. (See Note F[2] for disclosure on the valuation and terms of these options). In May 2012, one non-officer director exercised an option and acquired 25,000 shares of common stock for \$6,250. In November of 2013 each non-officer director were granted options to purchase 25,000 shares of common stock at an exercise price of \$0.82. Starting December 1, 2013 the compensation for each non-officer director will be increased to \$2,500 per month. It was also noted that if a non-officer director is the chairman of more than two committees then his or her increase will be to \$3,500 per month.

NOTE G – INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes using the enacted tax rates in effect in the years in which the differences are expected to reverse.

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE G – INCOME TAXES (Continued)

The Company's deferred income taxes are comprised of the following:

	<u>November 30, 2013</u>	<u>November 30, 2012</u>
Deferred Tax Assets		
Net operating loss	\$ 4,513,780	\$ 4,606,652
Allowance for bad debts	19,337	11,853
Inventory	233,793	311,730
Deferred Rent	14,320	10,186
Depreciation	<u>180,681</u>	<u>187,302</u>
Total deferred tax assets	4,961,911	5,127,723
Valuation allowance	<u>(3,505,304)</u>	<u>(3,551,738)</u>
 Deferred Tax Assets	 <u>\$ 1,456,607</u>	 <u>\$ 1,575,985</u>

The valuation allowance for the deferred tax assets relates principally to the uncertainty of the utilization of deferred tax assets and was calculated in accordance with the provisions of ASC 740, which requires that a valuation allowance be established or maintained when it is "more likely than not" that all or a portion of deferred tax assets will not be realized. The valuation allowance decreased by approximately \$46,000 during the year ended November 30, 2013. This valuation is based on management estimates of future taxable income. Although the degree of variability inherent in the estimates of future taxable income is significant and subject to change in the near term, management believes, that the estimate is adequate. The estimated valuation allowance is continually reviewed and as adjustments to the allowance become necessary, such adjustments are reflected in the current operations.

The Company's income tax expense consists of the following:

	Years Ended	
	<u>November 30, 2013</u>	<u>November 30, 2012</u>
Current:		
Federal	\$ 29,908	\$ 26,416
States	<u>23,337</u>	<u>33,338</u>
	<u>53,245</u>	<u>59,754</u>
Deferred:		
Federal	74,441	(84,700)
States	<u>19,788</u>	<u>(22,369)</u>
	<u>94,229</u>	<u>(107,069)</u>
Provision for income taxes	<u>\$ 147,474</u>	<u>\$ (47,315)</u>

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE G – INCOME TAXES (CONTINUED)

The Company files a consolidated income tax return with its wholly-owned subsidiaries and has net operating loss carryforwards of approximately \$11,000,000 for federal and state purposes, which expire through 2020. A reconciliation of the difference between the expected income tax rate using the statutory federal tax rate and the Company’s effective rate is as follows:

	Years ended	
	November 30, 2013	November 30, 2012
U.S Federal Income tax statutory rate.....	34%	34%
Valuation allowance	(25)%	(39)%
State income taxes	2%	2%
Other	-	-
Effective tax rate	11%	(3)%

NOTE H– RENTAL COMMITMENTS

The Company leases its office and warehouse space through 2020 from a corporation that is controlled by officers/shareholders of the Company (“Related Company”). Annual minimum rental payments to the Related Company approximated \$163,000 for the year ended November 30, 2013, and increase at the rate of three per cent per annum throughout the lease term.

Pursuant to the lease, rent expense charged to operations differs from rent paid because of scheduled rent increases. Accordingly, the Company has recorded deferred rent. Rent expense is calculated by allocating to rental payments, including those attributable to scheduled rent increases, on a straight line basis, over the lease term.

In May 2013, the Company entered into a lease to rent office space and a warehouse in Hong Kong for two years. Annual minimum rental payments for this space are approximately \$51,200.

The Company’s future minimum rental commitments at November 30, 2013 are as follows:

Twelve Months Ended November 30,	
2014	\$ 217,109
2015	\$ 199,080
2016	\$ 172,579
2017	\$ 176,031
2018	\$ 179,552
2019 & thereafter	\$ 338,296
	\$ 1,282,647

Net rental expense for the years ended November 30, 2013 and November 30, 2012 were \$300,281 and \$257,181 respectively, of which \$255,018 and \$223,237 respectively, was paid to the Related Company.

NOTE I – EMPLOYMENT AND OTHER AGREEMENTS

The Company has employment agreements, with terms through July 30, 2014 (renewable on each July 30th for an additional one year period) with two officers of the Company, which provides each with a base salary of \$225,000, subject to certain increases as defined, per annum, plus fringe benefits and bonuses. The Compensation Committee of the Company’s Board of Directors determines the bonuses. A bonus pool has been accrued for the two officers through November 30, 2013 totaling \$200,000. The agreements also contain provisions prohibiting the officers from engaging in activities which are competitive with those of the Company during employment and for one year following termination. The agreements further provide that in the event of a change of control, as defined, or a change in ownership of at least 25% of the issued and outstanding stock of the Company, and such issuance was not approved by either officer, or if they are not elected to the Board of Directors of the Company and/or are not elected as an officer of the Company, then the non-approving officer may elect to terminate his employment agreement. If either officer elects to terminate the agreement, he will receive 2.99 times his annual compensation (or such other

SURGE COMPONENTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE I – EMPLOYMENT AND OTHER AGREEMENTS (CONTINUED)

amount then permitted under the Internal Revenue Code without an excess penalty), in addition to the remainder of his compensation under his existing employment contract. In addition, if the Company makes or receives a “firm commitment” for a public offering of Common Shares, each officer will receive a warrant to purchase, at a nominal value, up to 9.5% of the Company’s common stock, provided they do not voluntarily terminate employment.

NOTE J– MAJOR CUSTOMERS

The Company had one customer who accounted for 10% of net sales for year ended November 30, 2013 and one customer who accounted for 10% of net sales for the year ended November 30, 2012. The Company had one customer who accounted for 13% of accounts receivable at November 30, 2013 and one customer who accounted for 19% of accounts receivable at November 30, 2012.

NOTE K- MAJOR SUPPLIERS

During the years ended November 30, 2013 and November 30, 2012 there was one foreign supplier accounting for 47% and 45% of total inventory purchased.

The Company purchases substantially all of its products overseas. For the year ended November 30, 2013, the Company purchased 56% of its products from Taiwan, 12% from Hong Kong, 27% from elsewhere in Asia and less than 1% overseas outside of Asia. The Company purchases the balance of its products in the United States.

NOTE L - EXPORT SALES

The Company’s export sales were as follows:

	Year Ended	
	November 30, 2013	November 30, 2012
Canada	1,938,209	2,648,725
China	5,546,974	4,244,844
Other Asian Countries	899,492	1,360,298
South America	560,241	104,340
Europe	865,320	153,678

Revenues are attributed to countries based on location of customer.

NOTE M – LINE OF CREDIT

In June 2011, the Company replaced its existing credit line with a line of credit with a new bank totaling \$1,000,000. Borrowings under the line accrued interest at 2.56% over the LIBOR rate. The line was collateralized by all the Company’s assets and included working capital and tangible net worth covenants. The credit line expired in March 2013. The Company did not renew the credit line since it does not believe that such additional funds are required at this time.
